

Care & Maintenance Instructions

Due to the non-porous surface of the finish, there is no need to use abrasive cleansers. Any household liquid detergent will give excellent results. To remove mineral stains, use a mild acid solution such as a liquid bowl cleaner.

425-205-5712

All organic coatings must cure. They start to cure from the time of application for a total of approximately thirty days.

1. Surface will be ready for use in 48 hours
2. Do not lay soap, bottles or any objects on the finish for long periods of time (a hanging shower caddy for everyday items is a good idea).
3. Leaky faucets must always be repaired.
4. Do not use abrasive cleaners. No S.O.S. pads, Comet, or Soft Scrub type products.
5. Do not use bath mats with suction cups underneath.
6. Any surface dust will dissipate in 3-4 weeks with normal cleaning and usage; do not pick surface dust off with finger.
7. The best way to keep the tub clean is to wipe it down with a towel after each use (it's not necessary to wipe it completely dry).
8. Caulk around tub before using.
9. These are some recommended cleaning products that are safe to use: *Lysol Basin & Tile Cleaner*, *Mr. Clean* (liquid), *Dow*, and *Fantastic*.
